Eugenia,

Sorry this slipped a bit. We'll have a spreadsheet on the mass balance to you this afternoon. We should talk again so we can get the data to you in a form you can use.

Subject: Mass balances and core data for Lower Passaic

Ed,

It was nice talking to you a few weeks ago when you were in the Region. As I mentioned to you that day, we'd like to obtain your spreadsheets with the mass balance calculations for the Lower Passaic as well as the low-res and high-res core sampling data.

We are aware that the core samples have not been validated, but we are eager to start looking at that data.

Is this something you can send me via email, post on a ftp site or on a CD? I would really appreciate getting that data.

Thank you very much for your help,
eugenia
